

# AP literature Lesson Plans

April 27 - May 1, 2020

This is a week of fundamentals practice. I will put four different prompts on Google classroom. Choose one of the four to write like it is the AP exam and take the other three and practice outlining.

- As you practice outlining, write a quality thesis statement and generate as many ideas as you can to prove your thesis (at least three) and write a good topic sentence for each idea. Also find proof from the text that you would use in your body paragraphs (arrange these under your topic sentences). Remember, on the AP exam, you will have 5 to 10 minutes to do this.
- On the prompt you choose to write an essay, put 45 minutes on the clock and practice the whole process. Outline and write the essay (shoot for 600 words)

\*you may hand write the essay if you want - if you hand write the essay, take a picture of the essay and send it to me (if you have google drive on your phone, you can scan it into google drive and send me a pdf. When you pull up your google drive, there will be a plus sign, and if you click on it, it will give you options (one of these will be to scan))
