A full year of computers is an EXIT requirement for all Oklahoma colleges, including junior colleges. A student must demonstrate computer proficiency when LEAVING college. The computer requirement may be met by taking a full year (2 semesters) of computers in high school. Keyboarding is not counted as a semester of computers.

### **ADVANCED PLACEMENT (AP) COURSE OFFERINGS**

Advanced Placement courses are designed to allow students to receive both high school and college credit simultaneously. AP courses are intended to replace those normally taken during the freshman, sophomore, or junior years at the college level. Students who successfully pass a national examination during the spring semester can receive college credit. AP courses challenge the academically capable students while helping them gain analytical and study skills required to succeed in college courses. AP coursework motivates students to undertake more challenging work in both high school and college and provides direction in selecting college majors.

Students take AP courses and exams for a variety of reasons: the challenge, the sense of accomplishment, the strengthening of their college applications, and the time and money saved. Even if students decide not to take the AP examinations, they should be more than prepared to pass a CLEP exam that covers similar material at their chosen college.

If taken, AP examinations vary in price. Please see your instructor for details.

### **CONCURRENT CREDIT OFFERINGS**

According to the Oklahoma State Department of Education, a high school student may enroll in a combined number of high school and college courses per semester not to exceed a full-time college workload of 19 semester-credit-hours. A student may enroll in a maximum of nine semester-credit-hours during a summer session or term at a college or university of the State System without the necessity of being concurrently enrolled in high school classes during the summer term. For purposes of calculating workload, one-half high school unit shall be equivalent to three semester-credit-hours of college work. Students wishing to exceed these limits may petition the selected higher education institution. The appropriate institutional officials will evaluate the student's academic performance and potential for success in determining the student's load, which may not exceed the number of semester-credit-hours 50 percent greater than the number of weeks in the applicable semester/term. The college should provide appropriate academic advising prior to and continuing throughout the student's enrollment.

Guthrie High School is pleased to work with Oklahoma City Community College and other state colleges and universities in providing concurrent enrollment for juniors and seniors through the Interactive Video classroom. Refer to pages 43 & 44 of this handbook for College Concurrent enrollment information, requirements, class substitutions, and grading weights.

Students may also participate in on-campus offerings from local universities such as the University of Central Oklahoma.

## **COLLEGE CONCURRENT ENROLLMENT**

Concurrent Enrollment permits qualified juniors and seniors to take, at the college level, courses which may be applied to a college-degree program.

### **Establishing Concurrent Enrollment**

1. Take the ACT examination prior to concurrent enrollment.
2. For community colleges such as Rose State College, Juniors and Seniors must score a minimum composite of 19 on the ACT, or have an unweighted GPA of 3.0. Students must also have an ACT subscore of at least 19 in the specific subject area. A Pre-ACT subscore of 19 also qualifies. For regional universities such as UCO and Langston, Juniors and Seniors must score a minimum composite of 20 on the ACT, or have an unweighted GPA of 3.0 and rank in the top 50 percent of the class. Students must also have an ACT subscore of at least 20 in the specific subject area.
3. Complete the college enrollment packet fully in a timely manner.

Students are responsible for payment of all fees, books, and/or tuition. Students are also responsible for providing Guthrie High School with documentation of such enrollment and a transcript upon completion. Concurrent enrollment will be transcribed for credit for core classes and elective classes.

If a student intends to take advantage of concurrent enrollment for dual credit, but fails to complete the class or fails to take care of necessary expenses with the college, a student will receive an "NC" on their transcript and will need to take a credit recovery course at GHS to obtain credit for graduation.

If a student intends to take advantage of concurrent enrollment for dual credit, but fails the class, the student will receive an "F" on their transcript and will need to take a credit recovery course at GHS to obtain credit for graduation.

If a student withdraws from a college course by the "Withdraw Without Grade" (or equivalent) deadline, or does not attend the course, the student will receive an NC on their transcript and will be enrolled immediately in a class at GHS.

According to the Oklahoma State Department of Education regulations, a high school student may enroll in a combined number of high school and college courses per semester not to exceed a full-time college workload of 19 semester-credit-hours. A student may enroll in a maximum of nine semester-credit-hours during a summer session or term at a college or university of the state system without the necessity of being concurrently enrolled in high school classes during summer term. For purposes of calculating workload, one-half high school unit shall be equivalent to three semester-credit-hours of college work.

Students wishing to exceed these limits may petition the selected higher education institution. The appropriate institutional officials will evaluate the student's academic performance and potential for success in determining the student's load, which may not exceed the number of semester-credit-hours 50 percent greater than the number of weeks in the applicable semester/term. The college should provide appropriate academic advising prior to and continuing throughout the student's enrollment.
